Introduction

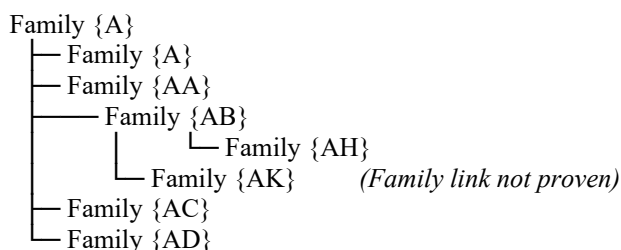

The starting point for this Audley family history narrative is that described as Pedigree “B” in Chapter 20 of the Audley Pedigrees by A. L. Reade. That document should be read in conjunction with this family history narrative that can be found in the ‘Published Information’ section of the Audley Family History Website, under the heading ‘Audley Pedigrees’.

Whilst most of their known family history is spent in Liverpool, Lancashire, this branch of the Audley Family moved from Shotwick in Cheshire to Liverpool in Lancashire around 1800, and moved to Liverpool in Lancashire. These four Brothers are the founding members of Audley Families ‘AA’, ‘AB’, ‘AC’ & ‘AD’. The Family ‘A’ narrative contains the information about the family while they were living in Cheshire. It should be noted that while the family was living in both Shotwick & Neston, Cheshire, their surname was recorded as “Allday”. Some family members are known to have emigrated to Canada.

Some family members are known to have emigrated to Australia, New Zealand, Canada, and America.

He is believed to have Died Q1 in 1975 at Bath in Somerset. (*Comment: Elsie's date of Birth has been taken from the 1939 Registers as this agrees with her Birth registration in the GRO Index. In what is believed to be her Death registration in August 1999 gives her date of Birth as the 1st March 1925. It has been concluded that the Death registration of {AB84} Elsie, given in the supporting evidence section of this file is the correct one as her Death was registered in Liverpool and the date of Birth stated in the Death registration most closely matched her Birth registration. There is however a slight concern that the Death registration is incorrect based on the following logic: Elsie Audley and Sydney George Pritchard appear to have had two children namely, and Born Q1 in 1946 Eileen J Pritchard, Born at Trowbridge, in Wiltshire, and Q3 in 1951 Robert S Pritchard, Born at Devizes in Wiltshire. It would also appear that her Husband Died Q1 in 1975 at Bath in Somerset. The question must be did {AB84} actually return to Liverpool after her Husband's Death.*)

1931 Census of England

The 1931 Census of England was taken 26th April 1931 but was destroyed during WWII

1939 Register of England

The 1939 Register were created in 1939 for the issue of registration documents and ration books shortly after the commencement of World War 2. As they were produced after the start of the war they do not include people who were member of; conscripted into and volunteered for the armed services. Additionally After World War 2 these registers were used as the registration of people into the newly formed National Health Service. These registers were 'updated' by the National Health service until 1991 when the National Health Service Registration was computerised.

The updates made under the National Health Service typically include; changes of surname by Marriage, corrections to Christian names (for example changing initials to full names) and recording the Deaths of individuals listed in the registers. No changes of address are recorded are the Births of new individuals are not recorded.

The records of individuals are either open or closed. Open records can be viewed by the public and Closed records cannot be viewed by the public.

Records are open if one of the following conditions applies:

- The record is open if the person was Born more than 100 years ago. This is the 100 year rule and means that progressively more records will be opened each year until they all become open in 2040.

This document has been produced for display on www.audleyfamilyhistory.com. & www.one-name.net Please feel free to distribute this document to others but please give credit to the website. This document should not be used for commercial gain

This document has been produced for display on www.audleyfamilyhistory.com & www.one-name.net Please feel free to distribute this document to others but please give credit to the website. This document should not be used for commercial gain

- The record is open if the person is deceased and the person's Death is recorded in the registers. In theory this means that the record for anyone listed in the registers and Died before 1991 should be open. However not all Deaths before 1991 were recorded in the registers, and people who were in the armed forces in 1939 are not listed in the registers.

Records that are not open are closed. However members of the public can make requests to the National Archive at Kew to open closed records. To do this they must be able to supply a copy of a Death Certificate and the National Archives must be able to relate this Death Certificate to a particular individual in the 1939 registers. For example the Death Certificate has the address where the individual Died and the 1939 Registers have the address where the individual was living in 1939, so not all requests may be successful.
