Introduction

This pedigree is based on the pedigree on the family tree given on page 260 in Chapter 20 of 'Audley Pedigrees' by A. L. Reade. That original family tree contained 5 people. It has now been expanded to 33 people. All of the people in this family were born in Liverpool with the exception of {G2} Alexander Audley and his Wife Mary Monaghan, who were both born in Ireland. Alexander and Mary were married in 1854 in Liverpool. Neither Alexander Audley nor Mary Monaghan has been identified in the 1851 Census and therefore it is speculated that they emigrated from Ireland to England after 1851 and before 1854. There is no evidence as to from where in Ireland they came.

Origins of Audley Family 'G'

The earliest documented evidence we have of this family is on the 26th February 1854 when {G2} Alexander Audley married Mary Monaghan at St Peters Priory "Roman Catholic Church" in Seel Street, Liverpool. Both Alexander and Mary appear to have been illiterate as they both sign their Marriage Certificate with an **X** (*i.e their Mark*). Additionally both their witnesses also sign the official record with an **X**.

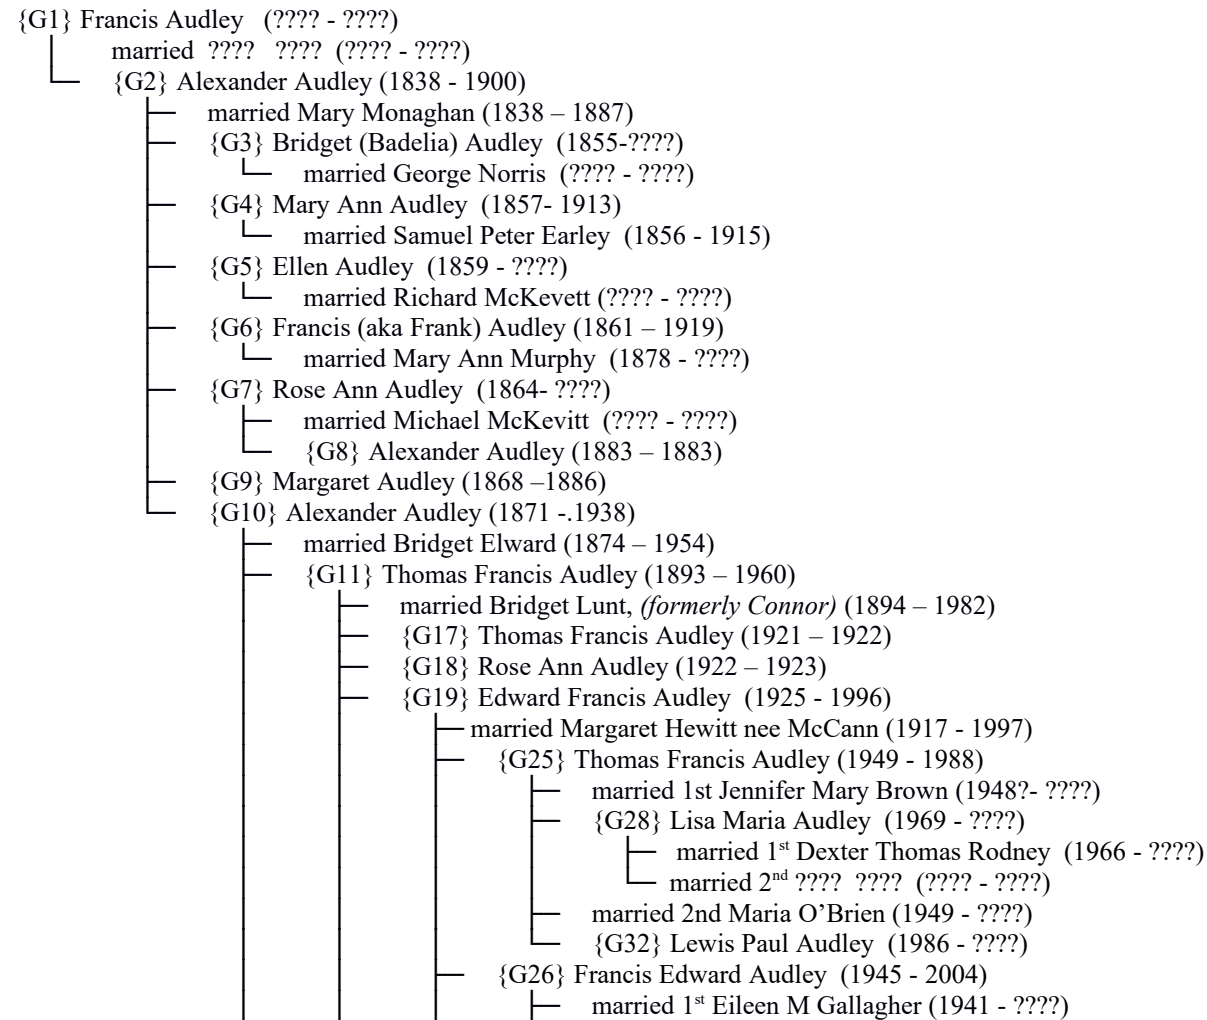

It is believed that both Alexander Audley and Mary Monaghan were Born in Ireland based on their places of Birth listed in the 1861, 1871, 1881 and 1891 Censuses of England. Unfortunately there is no evidence to indicate from which part of Ireland either of them came. It is interesting to note that in the 1861 Census of England their surname is recorded as Ordley and were living in at 52 New Bird Street, Liverpool. In fact they and their 4 children are the only people recorded with the Ordley surname in the 1861 Census of England. At the time of the 1861 Census they are living at the same address as a family with the surname Adderley. In the 1871 Census of England they were living at Britton Street, Liverpool and their Surname is recorded as Arderly. They are the only family in the 1871 Census of England recorded with the surname Arderly (*Comment: There is 1 person in the 1871 Census of England with the surname Arderley, a Servant, living in Everton, Liverpool, England*)

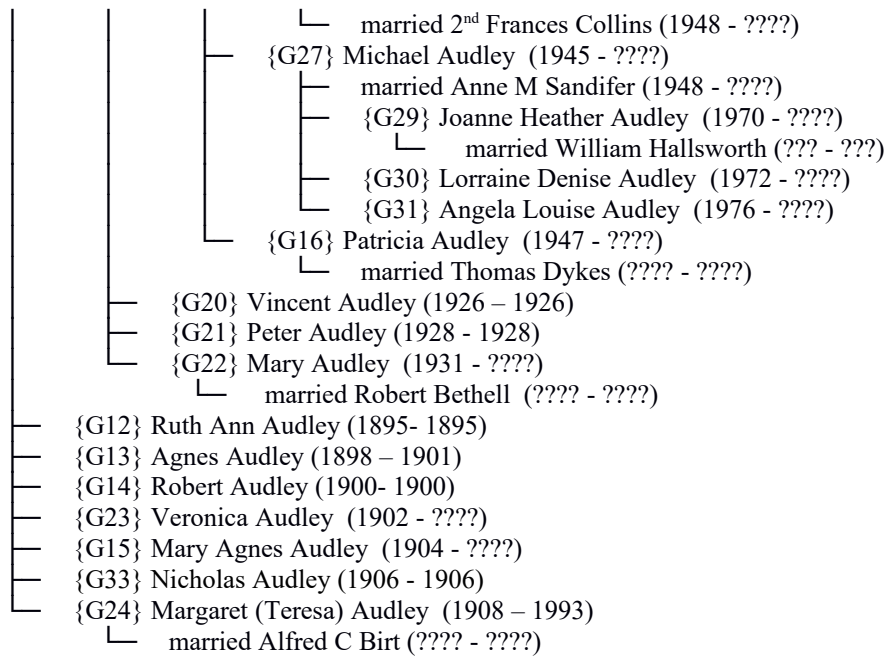

Alexander Audley's Father is recorded on his Marriage Certificate as Francis Audley and there is no evidence to suggest that Francis Audley ever came to England

Possible links to families in Ireland

- 1) *Whilst there is no direct link to this family, it may be of interest that there is an Alick Adley aged 34, with a Son also called Alick Adley in the 1901 Census of Ireland Resident of a House 46.1 in Newmarket (Merchants Quay, Dublin)*
- 2) *In the 'Griffiths Valuation of Ireland' in the Town of Roscommon there are two references to a Francis Audley as follows:*
 - *The first is at the location referenced as 19 Church Street, Roscommon. Townland of Ardnanagh. The Occupier was Francis Audley. The Immediate Lessors was Thomas Hannan; The description of the Tenement was 'Forge and Yard'. No area was stated; The Rateable Annual Valuation of the building and the total Annual Valuation of the rateable property was £1 0s 0d.*
 - *The second is the location referenced as 24 Church Lane (off Church Street) Town of Roscommon Township of Ballyphesan. The occupier was Francis Audley; The immediate lessor Michael Shearn; The description of the tenement was 'House and small garden' No area was stated The Rateable Annual Valuation of the building and the total Annual Valuation of the rateable property was £1 15s 0d.**It is believed that both the above Francis Audley's are the same person. It should be noted that the boundary between the Townships of Ardnanach and Ballyphesan ran down the centre of Church Street.*

(*Comment: There would appear to be inconsistent data within the information for {G6} as follows: Three sources of information regarding his Death on the 1st April 1919 namely his Death registration; his Burial record and the report of his Death in the Guardian all give his age at the time of his Death as 43 years. If this is correct it would mean that he would have been born between April 1875 and March 1876. The 1861, 1871 & 1881 Census of England data proposes that his Birth was Q1 in 1861.*) The following table records his age and calculated Birth year for the Censuses of England from 1861 to 1911 Marriage and Death information..

Source	Age	Calculated Birth Years
1861 Census	3 months	1861

1939 Registers of England

The 1939 Register was created in 1939 for the issue of registration documents and ration books shortly after the commencement of World War 2. As they were produced after the start of the war they do not include people who were member of; conscripted into and volunteered for the Armed Services. Additionally After World War 2 these registers were used as the registration of people into the newly formed National Health Service. These registers were 'updated' by the National Health Service until 1991 when the National Health Service Registration was computerised. The updates made under the National Health Service typically include; changes of surname by Marriage, corrections to Christian names (for example changing initials to full names) and recording the Deaths of individuals listed in the registers. No changes of address are recorded are the Births of new individuals are not recorded.

The records of individuals are either open or closed. Open records can be viewed by the public and Closed records cannot be viewed by the public. Records are open if one of the following conditions applies:

- * The record is open if the person was born more than 100 years ago. This is the 100 year rule and means that progressively more records will be opened each year until they all become open in 2040.
- * The record is open if the person is deceased and the person's Death is recorded in the registers. In theory this means that the record for anyone listed in the registers and Died before 1991 should be open. However not all deaths before 1991 were recorded in the registers, and people who were in the Armed Forces in 1939 are not listed in the registers.

Records that are not open are closed. However members of the public can make requests to the National Archive at Kew to open closed records. To do this they must be able to supply a copy of a Death Certificate and the National Archives must be able to relate this Death Certificate to a particular individual in the 1939 Registers. For example the Death Certificate has the address where the individual died and the 1939 Registers have the address where the individual was living in 1939 so not all requests may be successful.
