Introduction

The families detailed in this file are the various branches of the Audley Family that appear to have spent most of their time in Cheshire. In compiling the information for this file it became clear, at least to the author, that the surnames **Audley, Adeley, Adley, Aidley and Eardley**, became interchangeable, for a period of time, commencing as **Audley** and developing into **Aidley**.

Whilst no direct links to other Audley families have been identified this family could be associated with other Audley families as follows:

- Audley Family A: Audley Family A splits into the 4 Audley Families of Liverpool, namely Audley Families, **AA, AB AC, AD**. However Audley Family A contains the details of the family who were recorded in the Parish Registers of Shotwick and Neston in Cheshire. Shotwick and Neston being some 40 miles West of Siddington
- Audley of Audley in Staffordshire and of Nantwich in Cheshire: This family is detailed in Chapter 14 of 'Audley Pedigrees' by A. L. Reade. This family starts around 1575 and continues to the first quarter of the 1800s.
- Audley Family T: This family commences with the three illegitimate children of {T39} William Audley (1751 – 1824) of Nantwich and Newcastle under Lyme, and which is part of the Audley family described in Chapter 14 of 'Audley Pedigrees'.

In developing these Audley families the hope is that the Audley's of Cheshire (*this file*) will be able to be linked to Audley Family A or with Audley Family T.

Possible links between the various families in this file

There are 4 people born with the Christian name Martha as follows:

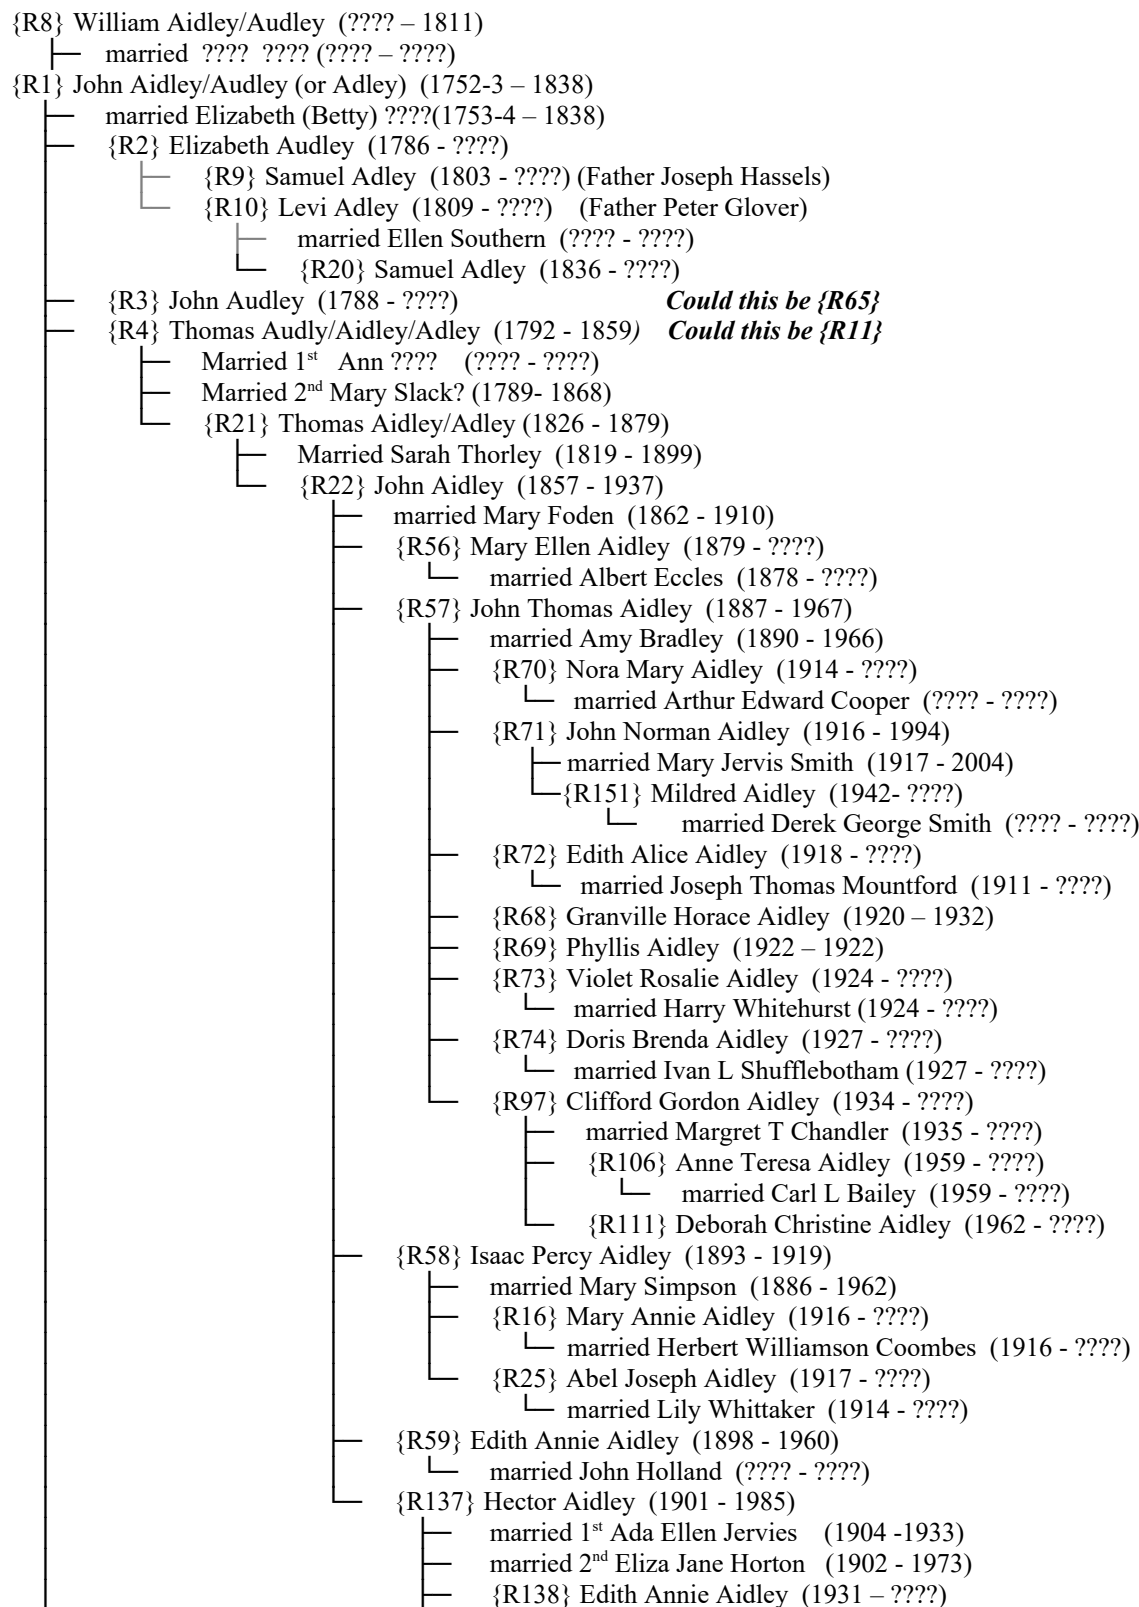

{R136} Martha Audley born 1755 part of **Family 8**
 {R7} Martha Audley born 1790 part of **Family 1**
 {R14} Martha Audley born 1820 part of **Family 6**
 {R29} Martha Adley or Aidley born 1846 part of **Family 6**

Is it possible that the above 4 were named after each other and therefore related?.

(*Comment: The reason {R39} is part of this family is from his 1st Marriage to Sarah Ward. The witnesses to that Marriage were {R5} Ann Bickerton and her Husband Thomas Bickerton; it is therefore assumed that Samuel Audley and Ann Bickerton are Brother and Sister. On the 2nd Marriage Certificate the Father of {R39} is given as John Audley, a Traveller. There is no mention of a Samuel Audley in the Will of {R1} John Aidley/Audley.*) (*Comment: Samuel's 2nd Wife's first name is recoded officially either as Pheobe or Phebe.*)(**Comment: Responsibility for probate matters was transferred to civil probate registries on 11th January 1858. Grant of Probate regardless of the disposition of the deceased's assets about Wills possibly being proved several years after the testator's Death applies, which appears to be the case with Samuel and Pheobe who Died in 1871 and 1883 respectively, and in terms of their individual Will value.*)

His Army Service Record indicates he was 'At Home' from the 29th February 1916 until the 1st October 1918, when he was discharged from Army Service to take up employment in civilian life being considered 'physically unfit to be a Combatant'. - 1.) **HARRY CLARK(E)** Who is Harry Clark(e)? Harry Clark(e) was not living with {R43} and his 1st Wife in the 1901 Census of England. In the 1911 Census he is living with {R43} and his 1st Wife and is recorded as 'Harry Clarke' and listed as 'Step Son'. It looks like he was recorded as 'Son' and then the word 'Step' added, possibly by the Census Enumerator. In the 1921 Census he is recorded as Harry Clarke an 'Adopted Son'. The 1921 Census was taken 19th June 1921 and Harry's age is given 20 years and 4 months, which would suggest that Harry was Born Q1 in 1901, and it should be noted that {R43} and his 1st Wife Married Q2 in 1900. So there at least 2 clear 'BMD Quarters' after the 1st Marriage of {R43} and before the Birth of Harry Clarke. In the GRO Indexes there is the Birth of a 'Harry Clark' registered Q1 in 1901 at Runcorn Vol 8a Page 219. The Mother's Maiden name is not recorded suggesting he was 'Illegitimate'. It should be noted that in the main GRO Index his surname is spelt Clerk and in the 'Cheshire BMD' website for local Register Offices it is spelt 'Clarke'. In the 1901 Census {R43} and his 1st Wife are living with his Wife's parents. The evidence rules out the possibility that Harry Clark(e) cannot be from a previous marriage of the 1st Wife of {R43}. Conclusion he is their 'Adopted Son'.

1931 Census of England & Wales

The 1931 Census of England & Wales was taken 26th April 1931 but was destroyed during WWII

1939 Registers of England & Wales

The 1939 Registers were created as the WWII National Registration on the 29th September 1939

This document has been produced for display on www.audleyfamilyhistory.com & www.audley.one-name.net Please feel free to distribute this document to others but please give credit to the website. This document should not be used for commercial gain

The 1939 Registers were created in 1939 for the issue of registration documents and ration books shortly after the commencement of World War 2. As they were produced after the start of the war they do not include people who were member of; conscripted into and volunteered for the Armed Services. Additionally After World War 2 these registers were used as the registration of people into the newly formed National Health Service.

These registers were 'updated' by the National Health Service until 1991 when the National Health Service Registration was computerised. The updates made under the National Health Service typically include; changes of surname by Marriage, corrections to Christian names (for example changing initials to full names) and recording the Deaths of individuals listed in the registers. No changes of address are recorded are the Births of new individuals are not recorded.

The records of individuals are either open or closed. Open records can be viewed by the public and Closed records cannot be viewed by the public. Records are open if one of the following conditions applies:

- * The record is open if the person was born more than 100 years ago. This is the 100 year rule and means that progressively more records will be opened each year until they all become open in 2040.
- * The record is open if the person is deceased and the person's Death is recorded in the registers. In theory this means that the record for anyone listed in the registers and Died before 1991 should be open. However not all deaths before 1991 were recorded in the registers, and people who were in the Armed Forces in 1939 are not listed in the registers.

Records that are not open are closed. However members of the public can make requests to the National Archive at Kew to open closed records. To do this they must be able to supply a copy of a Death Certificate and the National Archives must be able to relate this Death Certificate to a particular individual in the 1939 Registers. For example the Death Certificate has the address where the individual died and the 1939 Registers have the address where the individual was living in 1939 so not all requests may be successful
